Solve this problem

At Zach's birthday party, Zach is seated along with 7 guests at a rectangular table. Their names are Emily, Ian, Julie, Gabe, Lafern, Brooks and Christopher (his cousin). Zach is sitting at the head of the table, with the girls all sitting on one side, to Zach's right. His cousin is sitting at the opposite end of the table between Julie and Ian. Brooks is in the middle, opposite Emily.

Draw a seating plan to show where everyone is sitting.
